Coronavirus Update from Wesley Manor Retirement Community

The Center for Disease Control (CDC) recommends the following:

CLOSE CONTACTS OF PEOPLE WHO ARE UNDER INVESTIGATION FOR OR POSITIVE FOR COVID-19

IF NO SYMPTOMS

- Recommendation to remain at home or in a comparable setting
- Practice social distancing
- Active monitoring as determined by local priorities
- Recommendation to postpone long-distance travel on commercial conveyances

IF HAS RESPIRATORY SYMPTOMS OR FEVER

- Self-isolation
- Public health assessment to determine the need for medical evaluation; if medical evaluation warranted, diagnostic testing should be guided by CDC's [PUI definition](#)
- If medical evaluation is needed, it should ideally occur with pre-notification to the receiving HCF and EMS, if EMS transport indicated, and with all recommended [infection control precautions](#) in place.
- Controlled travel: Air travel only via air medical transport. Local travel is only allowed by medical transport (e.g., ambulance) or private vehicle while symptomatic person is wearing a face mask.

Wesley Manor was notified recently that a member of our community has symptoms related to the Coronavirus, but has not tested positive for the disease. The individual's physician recommends that this person do self-isolation (quarantine) for a period of 2 weeks. Our staff has contacted people who have had personal contact with this person, and they are doing self-isolation as well.

Please be advised that this is not a confirmed diagnosis of the Coronavirus, but based on CDC's recommendation's above, we are dealing with it as if it is a confirmed diagnosis.

You need to know that our staff is working hard to take all appropriate steps to limit the spread of this virus. You, as individuals, need to do all you can to stay healthy. Wash your hands. Use hand sanitizer. Stay away from crowds. Use social distancing. Cover your coughs or sneezes.

Please call if you have any questions or concerns. Peace and health,

Jerry L. Hoganson
