Memory Care Center

For Early-Stage Alzheimer's & Dementia Care

Truly Experience Personal Care

Wesley Manor was among the first retirement communities in our area to offer a licensed residential model for early-stage Alzheimer's and dementia care. Because we know people who suffer memory loss require the most specialized attention, our Memory Care Center is a licensed "Personal Care" facility. This means a nurse is on site 24/7, who can administer medications as needed.

Our staff is personally involved in the day-to-day activities of each Memory Care Center resident. We offer comfort and peace of mind to residents and their families in a safe and secure community.

Wesley Manor is a full, Continuing Care Retirement Community (CCRC). This is especially helpful for couples who may have varying levels of needs, yet wish to live on the same campus.

Key Memory Care services include:

- **Medication management and administration**
- **Reminders and assistance with dressing, bathing, personal hygiene, bathroom and bedtime routines.**
- **Assistance with hearing aids, eyeglasses, dentures, ostomies and prosthetic limbs**
- **Reminders and escorts to dining area**
- **Daily housekeeping and personal laundry**
- **Enclosed patio and garden area**
- **Special activities and outings**
- **Private and semi-private rooms**

Wesley Manor's Memory Care Center Serving the whole person

Because our goal is to address the physical, emotional, social and spiritual needs of the whole person, Wesley Manor employs a certified Activities Director, licensed Social Worker and full-time Chaplain.

To encourage family connection and interaction, we provide a guest room, free-of-charge for visiting family and friends of residents. We offer several gathering areas for family get-togethers and celebrations, which can also be reserved at no cost.

When you compare the services at Wesley Manor to those of other retirement communities, we know you will see the difference — and the difference is personalized care in a comfortable setting.
